📌 About

- 22K frames dataset
- 12 sessions
- 5 users
- Tested under domain shift

⚠️ Limitations:

- Low light reduces accuracy
- Confusion: open vs four
- Sensitive to distance

🖐 Hand Gesture Recognition

Model
Rand…

Dataset
22K F…

Real-Time Robust Gesture Detection

⚠️ This model is tested under real-world variations: lighting, background, and user differences.

🎮 Instructions

1. Upload a gesture video
2. Ensure hand is clearly visible
3. Try different lighting conditions
4. Test different backgrounds

🧠 System Design

```
Video → MediaPipe → Landmarks → Model → Pred
```

📤 Upload Gesture Video

Drag and drop file here
Limit 200MB per file • MP4, A...
